

## OUR IMPACT:

Children Incorporated's sponsors and donors enable us to help meet the needs of more than 20,000 children each year.

## WHERE YOUR MONEY GOES:

At least 85 percent of your donations goes directly to helping children. Whether you sponsor an individual child or make a general donation to support Children Incorporated's work, you are changing lives – not only are you helping the children enrolled in our program, but you are also helping their families and communities to break the cycle of poverty.

## ABOUT US

Children Incorporated provides basic necessities such as food, clothing, healthcare, and educational support to children living in poverty in the U.S. and abroad.

These essentials, so often taken for granted, are vital to a child's growth and success in school. Each year, we give thousands of impoverished children all over the world a chance at a better life.

## OUR WORK

We have nearly 300 affiliated projects in 23 countries, including the U.S.

Since 1964, we have provided support to over 300,000 children in need.

## WAYS TO HELP

### SPONSOR A CHILD

Your sponsorship does more than just feed or clothe a child. For \$30 a month, you not only help meet their basic and critical needs, but you also make an investment in their future. We work closely with the volunteer coordinators at our project sites, who are familiar with the individual needs and circumstances of each child in their care.

### DONATE

Our special funds offer a variety of giving options outside of sponsorship. Whether contributions are made to our feeding programs, for the purchase of mosquito nets, or to support the construction of a school, your donations greatly benefit children, their families, and the communities in which they live.
